

LIGHT HOUSE

FEATURES

- 1,704 SQ. FT.
- 3 BEDROOM
- 2 BATHS
- 2 CAR GARAGE

The Lighthouse floorplan offers a lot of little storage spaces and nooks for décor throughout the home. There is great cabinet space in the kitchen with an 8' island. The thoughtful design is open to the dining and living areas, with room for a fireplace. Vaulted ceilings keep the space open and light with a large door access to the covered back patio. A split-bedroom design allows for a spacious and luxurious master suite on

one side – with 5 piece attached bathroom, two closets, two vanities, soaker tub and step-in tiled shower. The other side of the home has two good sized bedrooms with bathroom and linen closet. This plan has a closet by each entry with room for coats, games, cleaning supplies and more. This floorplan is a crowd pleaser and offers easy one level living.
